

Design of Tests

Testing Strategy

Unit Testing

Integration Testing

User Acceptance Testing (UAT)

Sample Test Cases

Test Case	Description	Expected Result
TC1	Create child profile	Profile saved successfully
TC2	Upload content	Content stored in database
TC3	Approve content	Status changes to approved
TC4	Child views content	Only approved content shown
TC5	Activity logging	Entry created in ActivityLog

Performance Testing

Ensure response time < 2 seconds

Security Testing

Verify restricted access for children

Ensure no unauthorized content access
